

BryteWave eBook Instructions

Step 1: Opt-in for your BryteWave eBook title on bsd.ufl.edu/allaccess

Step 2: Wait for the email from BryteWave with a link to your materials.

Step 3: Follow the link in the email to access your BryteWave Shelf. The books will populate automatically.

Login Notes: Your BryteWave User ID is your Gatorlink email address. The password created is unique to BryteWave.redshelf.com.

The image shows a screenshot of the BryteWave login page. At the top is the BryteWave logo, which includes the text "Follett" in small blue letters above "BryteWave" in a larger blue font. Below the logo is the heading "Log In To Your Account". There are two input fields: the first contains the email address "gatorlink@ufl.edu" and the second contains a series of dots representing a password. Below these fields is a dark blue button with the text "Log In" in white. At the bottom of the login area are two links: "Forgot Password" and "Create an Account", both in red text. The entire login form is centered on a light gray background.

Troubleshooting Steps:

I opted in but have not receive the BryteWave email

If it has been over 24 hours, please visit bryteWave.redshelf.com and attempt to login with your @ufl.edu email address. You may need to reset the password. The book will populate even if you did not receive an email link to the materials, so checking your shelf is the first step.

It has been over 24 hours, I logged into BryteWave/Kortext with my @ufl.edu email, and my book is not on my shelf

Try resetting your browser cookies to refresh the page. If that does not work, please log a Help Desk ticket
